- *The animals and exhibits at the Bronx Zoo span the globe and include tiny toads from Tanzania and big cats from the Russian Far East. With more than 700 species, the zoo is the perfect place to inspire animal lovers of all ages. Part of our mission is to connect visitors to wildlife and inspire them to join our conservation work. Scientists at the Bronx Zoo, and the Wildlife Conservation Society's four other zoos and aquarium, are working to protect the future of all species and the places they call home. Much of this work has recently been featured on the Animal Planet docuseries, THE ZOO, which has provided behind-the-scenes looks into our work like never before.*
